

S&K KONSTANTELOS

Electromechanic Construction Company

- High Frequency Induction Heating Machines
- High Speed Nitrogen Hydraulic Presses
- New Generation Automations

Induction Generators

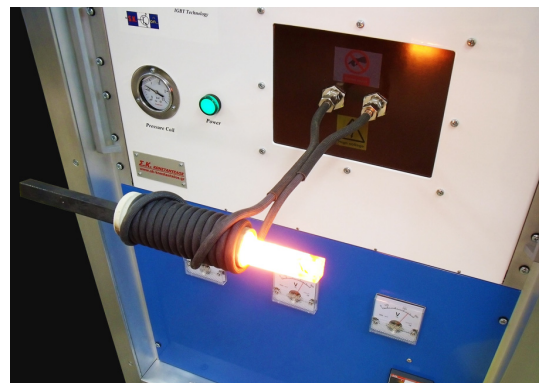

Series	SK300	SK400	SK500	UNITS
Output RF Power (Max. Continuous)	15 - 50	50 - 120	120 - 200	KW
Output Frequency	20 - 80	10 - 40	5 - 30	KHz
AC Line Input Voltage	360 - 450 (3Ø)	360 - 450 (3Ø)	360 - 450 (3Ø)	Volt
AC Line Input Current (Max. Continuous)	24 - 78 (per phase Ø)	78 - 180 (per phase Ø)	180 - 300 (per phase Ø)	Ampere
Power Transistors	IGBT	IGBT	IGBT	
Fast Response Protection Circuits	1 (Time Response)	1 (Time Response)	1 (Time Response)	Microsec.
Cooling Type	Water	Water	Water	
Input Water Temperature	16 - 36 (Range)	16 - 36 (Range)	16 - 36 (Range)	°C
Input Water Pressure	1 - 4 (Range)	1 - 4 (Range)	1 - 4 (Range)	Bar

Wide range of induction coils according to the subject we want to heat or weld. Our company can supply you induction coils open type or closed type, for locally heating, superficially or uniformly throughout the mass of metal.

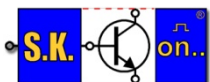

Our company can undertake and specialized structures beyond the standard models in order to provide integrated solutions to needs of its customers.

For more information and new updates please visit our website or contact us.
